

SPEAKER CABLES

Application: Speaker cables are highly recommended for use in connecting speakers, public address systems for clear and distortion free voice with low DB loss.

Conductor: Oxygen free flexible copper conductor.

Colour: Availability: Transparent/Black/White with Red tracer for polarity identification.
Also available on customer requires.

Packing: The delivery length is available in 100mtr. Coils.

Coaxial Cables (RG6)

Swadeshi Coaxial cables are designed to be used at homes for television sets and are also used by security agencies for advanced data transmission.

Salient Features:

- *Protects signals from external electromagnetic interference.
- *Very low attenuation or signal losses.
- *Special Jacketing offers increased life even in rugged conditions.

Technical Details:

- * **Conductor:** The central conductor is made of solid electrolytic grade annealed bare copper (BC) conductor or copper clad steel (CCS) conductor.
- * **Insulation:** The insulation provided over the conductor is of foam polyethylene (PE) dielectric insulator with gas injected in it to reduce signal loss.
- * **Screen:** Aluminium mylar tape is provided over the insulated conductor to shield the conductor and ensure disturbance-free transmission of signals.
- * **Braiding:** The braiding is generally provided with 60% coverage of Aluminium-magnesium alloy.
- * **Jelly filling**

Packing:

Available in 100 meter packed in carton and 305 meter packed in easy pull box.
Higher length is available on special request.
